

# I Loved You All The Way

Janie Fricke

All this time we've been together  
Everyday a new adventure  
Times, enough to last forever and a day  
Our love was sometimes all we had  
Through good times and through bad  
I loved you all the way  
All our days weren't bright and sunny  
There are times we have no money  
You could always find some funny thing to say  
And looking back on where we've been  
I'd do it all again  
I loved you all the way  
I loved you all the way  
Every night, every night, every day  
Times I thought I couldn't take it  
Wond'rin' if we'd ever make it  
You could hold me close and make it go away  
And though I've said it all before  
I never meant it more  
I loved you all the way  
I loved you all the way
