

Comin' 'Round for Us

Jann Arden

When the stars go out
When my sky falls down
When the sea breaks the shore
If I have to crawl
Through the fire fall
Nothing will keep me from us

Moving on is everything I've got
Lettin' go is everything I'm not

He waits, sting race, heartbreak
Runnin' down the freeway
Can't say if I'm gonna be alive or dead
I'm a broken mess
Earthquakes fix me, salt lakes,
Each and every mistake
Nothing's ever gonna hold me down
I'm comin' around for us

When the moon falls down
When the fish all drown
When the nice bleeding fire
If the Earth stops
And everything seems lost
Nothing will keep me from us

Moving on is everything I've got
Lettin' go is everything I'm not

He waits, sting race, heartbreak
Runnin' down the freeway
Can't say if I'm gonna be alive or dead
I'm am a broken mess
Earthquakes fix me, salt lakes,
Each and every mistake
Nothings ever gonna hold me down
I'm comin' around for us
