Taste of This

Jann Arden

I know you're sleeping I hope you're dreaming all about us I can remember your body moving Through the shadows

I've never been so in love I thank God above that I found you darling And I know it's a miracle I can see into everything we are

I can't remember, my past is over I've found happiness I have surrendered all of my yesterdays For just one taste of this

I hear your heartbeat It's in my memory just like sugar Kiss me like candy As warm as summer, sweet as kindness

I have never been so far gone I believe in God, I believe in you And I know when I close my eyes I will see the light come on shinin' through

I can't remember, my past is over I've found happiness I have surrendered all of my yesterdays For just one taste of this

I can sleep at last in your arms All I want is for you to love me back

I can't remember, my past is over I've found happiness I have surrendered all of my yesterdays For just one taste of this

I can't remember, my past is over I've found happiness I have surrendered all of my yesterdays For just one taste of this
