

# Naked Truth

Jeanette

Sometimes I am in a bad way  
Sometimes I am in a sad way  
And I know sometimes it is quite hard for you  
To understand my bitter mood

Sometimes my back's against the wall  
Sometimes I come back down from my words  
And I know sometimes it is quite hard for you  
To understand my bitter mood

We'll never leave us in the lurch  
And in our lives we do the research  
Day by day we have to watch out  
We're not superficial oh  
In foggy times we take care of us  
And our souls, our minds and we trust  
In our faith and strength that we have

Look inside the dark  
Into my naked truth  
There is my secret place to lose and cry  
And lie and die  
A cumber of my heart  
Undercover of darkness  
You slink into my deepest point  
You see we are conjoined  
That's my naked truth

Sometimes you're even in a bad way  
Sometimes you're even in a sad way  
Let's come together shared sorrow is half sorrow  
When we leave our rooms today  
We have to wear our smile for sale  
It frees our souls to blow  
The deepest down of our souls

We'll never leave us in the lurch  
And in our lives we do the research  
Day by day we have to watch out  
We're not superficial oh  
In foggy times we take care of us  
And our souls, our minds and we trust  
In our faith and strength that we have

Look inside the dark  
Into my naked truth  
There is my secret place to lose and cry  
And lie and die  
A cumber of my heart  
Undercover of darkness  
You slink into my deepest point  
You see we are conjoined  
That's my naked truth
