

# How Do I Deal

Jennifer Love Hewitt

Every day I wake up  
To another day gone by  
Nothing but the open road  
And the never-ending why

Anything can happen  
Yeah, but nothin' ever does  
I try to change, it's kinda strange  
The same as it ever was but look at us

How do I deal with you?  
How do I deal with me?  
When I don't even know myself  
Or what it is you want from me

How do I deal with us?  
How do I know what's real?  
When I don't even trust myself  
Or what it is I feel  
And how do I deal?

Every night, in the dark  
I lie awake in bed  
How am I supposed to dream  
With all the static in my head?

I turn in all directions  
And I pray for some relief  
What can I do but feel the weight I'm underneath  
And grit my teeth

How do I deal with you?  
How do I deal with me?  
When I don't even know myself  
Or what it is you want from me

How do I deal with love?  
(Why do I?)  
Why do I have to choose?  
And everybody's tellin' me  
What the hell I have to do

And how do I deal with us?  
How do I know what's real?  
(Real)  
When I don't even trust myself  
Or what it is I feel  
Now how do I deal?

How do I deal with you?  
(How do I deal with you?)  
How do I deal with me?  
When I don't even know myself  
Or what it is you want from me

How do I deal with love?  
(How do I deal?)

Why do I have to choose?  
When everybody's tellin' me  
What the hell I have to do

How do I deal with you?  
(How do I deal with you?)  
How do I deal with me?  
(How do I deal with me?)  
When I don't even know myself  
Or what it is you want from me

How do I deal with us?  
(How do I know what's real?)  
How do I know what's real?  
When I don't even trust myself  
Or what it is I feel

How do I deal?  
(How do I deal? Yeah)  
How do I deal?  
How do I?  
How do I?

How do I deal?  
How do I?  
How do I?  
How do I deal with you?  
(How do I deal?)
