

Damien Dreams

Jeremy Enigk

Here in all my time will tell
They said I love this life
The way that I love you
Only scars can show me now
If I've gone astray
Promise me you'll be here

Only time can show me how
They said I love this life
Running from how I feel
Lonely words still top of hell
If I've gone astray

Promise me you'll be here to stay awake
I don't know, sometime you tell me when I'm wrong
Hollaring who made the skies and the wind blow
If you ask, you'll see

Only time can show me how
They said I love this life
Running from how i feel
Lonely words still top of hell
If I've gone astray

Promise me you'll be here to stay awake
I don't know, sometime you tell me when I'm wrong
Hollaring who made the skies and the wind blow
If you'll ask forevermore don't turn me down
