I've Been Thinking About You

Jocelyn Enriquez

Alone again I'm waiting for your love To come into my life I'll take you in and give you all I have Together we'll make it last I've been thinking about you again I'll be your lover and your best friend Every night I hope and pray That maybe you'll come my way We could be falling together in love Your are the only one I'm dreaming of

I've been thinking about you And I don't want to live without you You and I we can be just fine But I want your love to be all mine I've been thinking about you And I don't want to live without you You and I we can be just right But I need your love tonight

Here I am still waiting for your love So come into my life Take me in and never let me go Baby just hold me close I've been thinking about you again I know you know so I won't pretend Everynight I hope and pray That this time you'll come my way We could be fallin together in love Your the only one I'm dreaming of

We could be falling together in love Your are the only one I'm dreaming of

I've been thinking about you And I don't want to live without you You and I we can be just fine But I want your love to be all mine I've been thinking about you And I don't want to live without you You and I we can be just right But I need your love tonight (2x)
