

# Can't Get Away From You

John Anderson

You said, "Don't come around knocking on my door"  
I said, "I've had enough, I won't be back no more"  
But here I am, I'm back again, just like the same old fool  
It's like I'm hooked, caught in a trap, can't get away from you  
And ev'ry night this empty bed reminds me  
I toss and turn and can't sleep the whole night through  
And early in the morning always finds me with you on my mind; c  
an't get away from you  
Honey, please consider me and take me back again  
I want your love, I need it bad, a honey let me in  
And ev'ry night this empty bed reminds me  
I toss and turn and can't sleep the whole night through  
And early in the morning always finds me with you on my mind; c  
an't get away from you.
