```
Let's do it let's do it let's jump
I've got a road map and a compass in the trunk
Let's do it let's do it let's drive
Leave it all behind
Let's do it let's do it let's fly
I've got two one way tickets to the cloudless sky
Let's do it let's do it let's glide
Wave it all goodbye
Let's do it let's do it let's jump in with both feet
Full throttle maximum heat
Let's jump jump jump
Let's do it let's do it let's run
I'll remember to forget my smoking gun
Let's do it let's do it let's ride
This big wave with the tide
Let's do it let's do it let's jump in with both feet
Full throttle maximum heat
Let's jump jump jump
I've got my parachute
I've got my combat boots
For when we hit the ground running
I've got my green grenade
To blow the blues away
'Cos you know they're going to be coming
Let's do it let's do it let's jump in with both feet
Full throttle maximum heat
Let's jump jump jump
Let's jump jump jump
```
