

Love Is On Our Side Again

Julio Iglesias

In this crazy life
We reach for the best we can
But sometimes it slips away
No matter how we plan.
You were the best thing in my life
My only hope of getting' it right
Who would've thought we'd get to have
A second time around?

But now that love is on our side again
Let's take these feelings all the way
Let's open up and live our passions to the end
Now that love is on our side again.

I loved you too much
Without you i felt so wrong
It's funny how we tear ourselves apart, just to belong
I'll never ever compromise
That look of trust within your eyes
We'll let our hearths grow forever
Here on solid ground.

Now that love is on our side again
Let's take these feelings all the way
Let's open up and live our passions to the end
Now that love is on our side again.

Now here we are
And the storm is over
We're ready for that dream
We'll get it right
It just could take a little longer
A time to heal our wounds
Is all we need.

Now that love is on our side again
Let's take these feelings all the way
Let's open up and live our passions to the end
Now that love is on our side again.

Now that love is on our side again
Let's take these feelings all the way
Let's open up and live our passions to the end
Now that love is on our side again.
