

Keep On

Junior Doctor

Lately I've had a hard time trying to fall asleep
And I've tried everything from medications all the way to counting sheep
But I just end up creating a crippling addiction
To things I swore I'd never need - oh
I laid awake in bed last night through a thousand dreams
And I began to think that everything I want is so far out of reach
But then I looked at you and knew my dream was lying right here
next to me

So I say

We keep on dreaming of all we can be
And I don't have much, but I have you
So let's keep on dreaming, and I'll keep believing
Because I know that dreams come true
And my proof is that I have you

Now I try so hard to be good company
But sometimes my ADD gets the best of me
So busy trying to reach the stars
That I forget about the flowers at my feet
Then something makes you laugh
And I quickly remember that you are all I need

Cause your smile lifts me up whenever I am down
Your eyes, they ease the pain from when I've hit the ground
And the truth is my dream was always you
And baby you're the reason I know dreams come true

Yeah I'll keep on, cause I have you
