## Play On

Kansas

All of my life, the wheels were turning Drawing me near, to something that's burning bright Oh, the music begins, a song that is new Joining as one, it leads me to you

Play on, play on, lifting our voices to reach the sky Play on, play on, singing a song and my heart's on fire

My morning star has always been with me Lifting me up when I couldn't carry on Turning the page to each song I write Leading me on, on through the night

Play on, play on, lifting our voices to reach the sky Play on, play on, singing a song and my heart's on fire

Living the song, holding on to a dream that never dies I open my eyes, learning the word that never fade Now it begins, never to end, it's the prize I long for

Play on, play on, lifting our voices to reach the sky Play on, play on, sound a refrain to be heard on high Play on, play on, singing a song and my heart's on fire
