Kaskade

Darlin', we were just starting out But I can?t deny the someone I saw Darlin', we were just starting out Don?t like a sound with it, hope I did right I won?t pretend She was less than a friend Together such a long time ago Forgot how she made me feel so Then out of the blue God gave me you And this is where my heart is at And I?ll never look back Darlin', we were just starting out But I can?t deny the someone I saw Darlin', we were just starting out Don?t like a sound with it, hope I did right Roll me once again Are you [Incomprehensible] roll me once again Soak, soak Darlin', I?m sure We?ve got something that's pure And this is where our love will live We?ve got so much to give Roll me once again Soak into your skin With all my soul I?m gonna take hold Roll me once again Soak into your skin With all my soul I?m gonna take hold Roll me once again Soak into your skin With all my soul I?m gonna take hold Darlin', we were just starting out But I can?t deny the someone I saw Darlin', we were just starting out Don?t like a sound with it, hope I did right We were just starting, starting right here We were just starting, starting right here Roll me once again Are you [Incomprehensible] roll me once again Soak, soak Roll me once again

Soak
