

## Be With You This Christmas

Katie Armiger

Christmas only comes once a year  
It's that time of year I fear  
It's hard to be alone, I rather be alone with you  
So many things that I could ask for  
Pray to god, hope and wish for

Chorus:

I wanna meet you underneath the mistletoe  
Will just stand there all night and let everything go  
I know I'm running out of time,  
But I just want to be with you this christmas

Snow is falling outside my window  
This town is feeling so cold  
I only have one more day, to get to where you are  
There's only one flight left that I gotta catch that will take  
me that far

Christmas is suppose to be about love and family  
So I'd say yes right now if you got down on your knee

I'll meet you underneath the mistletoe  
Just lie there forever, and I'll never let you go  
I'll meet you underneath the mistletoe  
Just hold me forever, never let me go  
I made it just in time  
I'm not going to be alone this christmas  
I just want to be with you, this christmas
