

Weakest

KeKe Wyatt

I'm just thinking babe
Maybe you and I could spend the weekend here
In a bed, cos I don't know if I have the strength t
To Get away from your loving ohh, oh
I'm getting weaker babe,
Every other minute (uh) when you all up in it,
It don't ever finish
Boy you know... you're... driving me craaazy
Going insane for your loving, noo whoa

Now I'm at my weakest, loving so loud
We're... busting all the speakers all on the ground
And my body's calling for you,
But you barely can hear
I can't speak cos I'm weak, it's clear, whoa oh

That you'll never ever stop what you be doing
Take it to the floor and we still making love
Right there, right there you know where you going
Don't know what you're doing to me
And we crawling round for more, we crawling on the floor
We crawling out the bed, bed ain't really had me
We get weaker, weakest I've ever been
But don't worry I can handle it

Ain't no words to say
You take me to a place like I ain't never been
Can we stay cos I can't move
You broke my defence
You got me hooked on your loving, ohh-oh
(My body's aching baby)
Fatigue is taking over
You work me like I owe ya
But this ain't no complaint just so you know, yeah
This feeling is crazy,
I'm still addicted to your love baby

Now I'm at my weakest, loving so loud
We're busting all the speakers all on the ground
And my body's calling for you,
But you barely can hear
I can't speak cos I'm weak, it's clear

That you'll never (never) ever stop what you be doing (ohhh)
Take it to the floor and we still making love (we still making love)
Right there, right there you know where you going
Don't know what you're doing to me (yeahhh)
And we crawling round for more
(Crawling on the floor) we crawling on the floor
We crawling out the bed, bed ain't really had me
We get weaker, weakest I've ever been
But don't worry I can handle it

That's why I'll never forget tonight
Cos I ain't never felt this way in my life
Don't understand how you taken my energy
(And making love to me, keeping me weak)

What do you expect me to do
You got me falling now (bending)

You'll never ever stop what you be doing
Take it to the floor and we still making love
Right there, right there you know where you going (ohhhhh)
Don't know what you're doing to me (meee)
And we crawling round for more (for more), we crawling on the floor (on the floor)
We crawling out the bed, and bed ain't really had me
We get weaker
Weakest I've ever been (that I've ever been)
But don't worry I can handle it

Ohh oh baby [till fade]
