I'm gonna ride out this love wave breaking in my mind

CAROLINE

calling out loud I say wait I want to know where I'm going

is it too late for my love to be ever showing is it too late for my love to be ever growing is it too late

hold it

CAROLINE I'm fading I'm fading I'm fading away from love hold it

CAROLINE I'm breaking I'm breaking away from love

is it having the pain that doubles the heart or is it having the heart that doubles the pain all the signs say its having the heart yes its having the heart that doubles the pain
