

# Karmic Wheel

Kreator

Shelter me for I am locked in a world  
That lost the will to be free  
Dying age a chronicle of forgotten peace  
Replaced by hate  
Rescue me for all I can do is try  
To escape this reality  
Trip away color the night until the  
Sun awakes another day

The karmic wheel is turning  
Faster than before

Cover me with lifesblood essence  
Leading me to a cosmic desire  
Sent from God the spark of an earthly  
Existence leaves new ornaments  
Burn my psyche lead it to the  
Crystal stake and set it on fire  
Here to stay before it could begin  
You lead it to the end

The karmic wheel is turning  
Faster than before

Till the end of time, till the end of life  
The wheel is turning as we die

(Keep turning)

Come with me, to where all greed  
Ends honesty is all that matters  
Far from here, awareness far beyond  
Industrial intellect  
Lay on me for the ones who felt  
The same way won't forget us  
All I lose concrete slavery  
Liberty so imperfect

The karmic wheel is turning  
Faster than before

Till the end of time, till the end of life  
The wheel is turning as we die

(Keep turning)
