We're lost at the edge of time
No money, it ain't a crime
Doing things the way that I choose
Gonna make the front page news
My finger on the gun
Bang, bang, gets things done

You got nothing, nothing to lose Street life, paying your dues Gonna sing the young man blues You got nothing, nothing to lose

I want dollars, sex, instant fame Let it rock, the name of the game Steal a car, and I'm ready to fight Fat cop gonna read ya your rights

I'm lost on the heartbreak zone
Hold tight, don't let go, no, no, no
You got nothing, nothing to lose
Street life, pay your dues
Gonna sing the young man blues

Fall from grace, child in time Born of thunder, one of a kind Fire and ice, battle cry Powers within, they multiply, yeah

## Oh...

Loose gun and I can't be beat White trash kickin' the street A city brat gone far from home A city brat don't want anymore, My finger on the gun A bang, bang gets things done Yeah, yeah, yeah

You got nothing, nothing to lose Street life, paying your dues Gonna sing the young man dues You got nothing

You got nothing, nothing to lose Street life, paying your dues Gonna sing the young man blues You got nothing, nothing to lose

You gotta scream and fight
Hey, hey, yeah, hey, hey, yeah
Whoa, whoa, whoa, whoa, whoa
No, no, no, no, no
Ooh, ooh, ooh, ooh, ooh
Yeah, Yeah
