

All Fall Down

Lalaine

It's a long lonely road
Where do I go
Looking for someplace that feels like home
Been searchin' so long
Where did I go wrong
Maybe the answer's somewhere beyond

The stars in the sky
And who knows why

We all fall down
Life's taking it's toll
It's all out of control
Yeah we all fall down
It's my dignity that's saving me tonight

As I walk through this maze
Is this just a phase
Will all my tomorrows be this way
The night is so black
In front and in back
Sometimes it's so dark and you don't know where you're at

Like a star way up high
Droppin' out of the sky

Lift me up
So I can see
Outside of me
And what could be
A different life
