

Rhapsody

Lana Lane

Closer to the future
Distant are your memories
Time enough to leave the past behind
Hands across the ocean
Bridges on a stormy sea

Singing for tomorrow
Lift your voices high

Planet Earth Rhapsody
Voices unite in harmony
From Amsterdam to Tokyo
Color the sky with rock 'n roll

Marching after sunset
Candles burn like fireflies
Evermore in search of higher ground
Headed for the future
Reaching to infinity
There's a summit waiting to be found
Singing for tomorrow
Lift your voices high

Planet Earth Rhapsody
Voices unite in harmony
From Amsterdam to Tokyo
Color the sky with rock 'n roll

Closer to the future
Distant are your memories
Time enough to leave the past behind
Hands across the ocean
Bridges on a stormy sea
The overture begins to turn the tide

Singing for tomorrow
Lift your voices high

Planet Earth Rhapsody
Voices unite in harmony
From Amsterdam to Tokyo
Color the sky with rock 'n roll
