

Take Me

Lari White

Forty miles outside of Houston city limits
Eldorado with a full tank of gas in it
It'll take us where it thinks we need to go
All we got to do is keep it in the middle of the road

Take me up to Wichita
Hold me in Niagara Falls
Rock me in Memphis
Kiss me down in New Orleans
Marry me in the keys
Don't care where we go
As long as you take me

Baby, make a left on exit 98
My sister told me that the etouffee is great
Oh, we could split a cold one to wash it down
Watch the sunset on the face of a sleepy little town
Then

Take me up to Wichita
Hold me in Niagara Falls
Rock me in Memphis
Kiss me down in New Orleans
Marry me in the keys
Don't care where we go
As long as you take me

Ninety miles per hour
One kiss every minute
It's my favorite car
As long as you're in it

Kiss me down in New Orleans
Marry me in the Keys
I don't care where we go
I don't care where we go
As long as you take me
