

Breathe

Lee Carr

If you ever been in love
And you know just what I'm talking about
Expect when you really know you finally find the person you want
And you wanna spend the rest of your life

I thought I been there before
But now that I'm sure, I finally found somebody who cares
I'm giving my heart and my soul to her
Now just want the whole world to know

You're the reason that I breathe
I want you to know that
If you were to leave, then I couldn't go back
My life would be incomplete without you here

You're the reason that I breathe
Ladies if you got a man
Fellas if you got a girl
Why don't you tell em that they mean the whole world... to you... you you yo
u
Tell em you're the reason that I breathe

The feeling you get when you call em n they don't answer
N you feel like you're whole world's about to stop
And you can't believe somehow, somebody makes you feel this way
I'm talking about
You can't eat
You can't sleep
You can't think at all
Their like the puzzle that's been missing in your life
Why don't you look em in they eyes
And tell them that you're the reason that I breathe

I want you to know that
If you were to leave then I couldn't go back
My life would be incomplete without you here
You're the reason that I breathe
Ladies if you got a man
Fellas if you got a girl
Why don't you tell em that they mean the whole world... to you... you you yo
u
Tell em you're the reason that I breathe

I was broken before I met you
Now I'm not stressing like I use to
And I gotta say
That you made my life much better

I can barely breath
I can barely breath
when your not with me

You're the reason that I breathe
I want you to know that
If you were to leave then I couldn't go back
My life would be incomplete without you here
You're the reason that I breathe

Ladies if you got a man
Fellas if you got a girl
Why don't you tell em that they mean the whole world... to you... you you you
u
Tell em you're the reason that I breathe

If you got a man
Or if u got a girl
Why don't you tell that they mean the whole world to you... you you you you
I said if there's somebody out there who feels like me put you're hands up a
nd tell em you're the reason that i breathe
