

Last Day On Earth

Lil Eddie

Beat me up, beat me up
Beat me up, beat me up yeah
Oh whoa ohh
Whoa whoa yeah

Out of this world
Face like porcelain
Sexy lips
Silky soft skin
Ridiculous
Sparkly that lights her eyes (eyes)
Not typical
The way she talking
Girl where you from
Never heard your accent ever before
Where have you been all my life (life)

Falls on the way to jupiter
Flying in the car in the moon to [?]
Girl you come from a city of gold
Take me down the yellow brick road
Make this my last day on earth
Take me back to your world
Cause you gotta be from another place
From another galaxy girl
Make this my last day on earth
Show me how it all works
On the planet that you come from
Baby baby baby
(Make this my last day on earth)

Beat me up
Just teleport me
You use your power
But conserve your energy
Girl save a little
Cause we're shooting stars tonight (tonight)
Dinner for two then go for round two
No gravity
Have sex on the moon
We're making my music all in the sky (the sky)

Falls on the way to jupiter
Flying in the car in the moon to [?]
Girl you come from a city of gold
Take me down the yellow brick road
Make this my last day on earth
Take me back to your world
Cause you gotta be from another place
From another galaxy girl
Make this my last day on earth
Show me how it all works
On the planet that you come from
Baby baby baby

Is it summer time in your winter
Are there even seasons

A change in weather
Is there more than 7 days a week
If not can I add one more for you
Does the sun shine every colour
Do the flowers grow even in the summer
Can everyday be february 14th
Show me what I've never seen

Make this my last day on earth
Take me back to your world
Cause you gotta be from another place
From another galaxy girl
Make this my last day on earth
Show me how it all works
On the planet that you come from
Baby baby baby
(Make this my last day on earth)
(On earth, on earth yeah)
