Come on baby take my hand
Tell me that you are my man
I'll do anything i can to be with you
If you only knew how much
When your gone i miss your touch
Holding you is such a ... to be with you

I would give anything, anything to be with you Anything you want me to, anything to be with you I would give anything, anything to be with you Anything you want me to, anything to be with you

La la

There's no need for you to roll, i'm the one that you will hold I'd do anything, I owe to be with you I see my future in your eyes
In your arms i realize
life's a game i won the prize, to be with you

I would give anything, anything to be with you Anything you want me to, anything to be with you I would give anything, anything to be with you Anything you want me to, anything to be with you

If i had to chose a million dollars or you I'd chose you, i'd chose you ohh you

I would do, anything for you To be with you my love, love To be with you my love, love

I would give anything, anything to be with you Anything you want me to, anything to be with you I would give anything, anything to be with you Anything you want me to, anything to be with you (2x)

I would give anything
