Love Without a Name

Lisa Stansfield

What is this? How did I get here? Pretending I don't know your name again In another world I'd be your girl Out in this one I'm crying I'd die without you

So I can't let you go Some things you can't explain I always say it's the last time but Here we go again You kiss me and I surrender I can never resist the pain It's just so Baby you know It's just love without a name

It haunts me Oh, so bitter sweet Never knowing when we'll we meet again In another world I would say goodbye but in this one I'm flying And I'd die without you

So I can't let you go Some things you can't explain I always say it's the last time but Here we go again You kiss me and I surrender I can never resist the pain It's just so Baby you know It's just love without a name

No, no, no, no But when we're dancing slowly When you hold me I know

So I can't let you go Some things you can't explain I always say it's the last time but Here we go again You kiss me and I surrender I can never resist the pain It's just so Baby you know It's just love without a name

No, I can't let you go It's love without a name

Cos I love you baby

No, I can't let you go It's love without a name Tištěnoz www.txp.cz
