

## A Place to Land

### Little Big Town

I dip my toe in the water  
Beofre i know it im in over my head  
I try and warm my self by the fire  
But i end up getting burned instead  
I sold my soul for a little bit of heaven  
Put my heart in the wrong hands  
Ive gone places where  
I swore i would never go again  
See ive never had any trouble falling  
Im just trying to find a place to land

I drew me a line in the crossing  
Speed up wheni should slow down  
Well dang if i dont stay up in it  
When i probably should go around  
Always thinking thats its gonna be forever  
Always thinkningits a good thing  
All i know is that im giving everything i can  
See ive never had any trouble falling  
Im still trying to find a place to land

Still tryin to find a place to land (3x)

I told myself that i had it  
I told myself i was through  
Said im leaving love for the foolhearted  
But that was before i found you  
Im on the edge baby im looking over  
All my love here i go again  
If i seem a little bit afraid  
Baby try to undersatnd  
See i never had any trouble falling  
Im just trying to find a place to land

Still trying to find a plce to land (4x)
