

# Let It Rain

Living Things

Babe

Why are you still inside  
Why don't you come outside  
Relieve your pain

Time

We've been killing time  
But I don't mind  
The city's got me down

And our glory days are over  
Yeah our glory days are gone

Let it rain, let it rain  
I know coming down can hurt  
And tonight is the night  
Where we leave it all behind  
'cause I don't believe that they can wait  
The sky's going black, lets celebrate  
Let it rain, let it rain  
I know coming down can hurt

Lies

We've been telling lies  
One more's around  
In this sleepless town

And our glory days are over  
Yeah our glory days are gone

Let it rain, let it rain  
I know coming down can hurt  
And tonight is the night  
Where we leave it all behind  
'cause I don't believe that they can wait  
The sky's going black, let's celebrate  
Let it rain, let it rain  
I know coming down can hurt

And our glory days are over  
Yeah our glory days are gone

Let it rain, let it rain  
I know coming down can hurt  
And tonight is the night  
Where we leave it all behind  
'cause I don't believe that they can wait  
The sky's going black, let's celebrate  
Let it rain, let it rain  
I know coming down can hurt
