

# Generation Aliens

Lizzy Borden

The naked truth is a blaspheme  
Shut your eyes and you won't see  
Save us all from the fate of a harsh reality  
The power of seduction  
Only leads to more corruption  
Decadence induced in youth  
From the devil's anarchy

Save us all - From what our eyes behold  
Spare us all - From what our ears are told

Show us all, you know the way  
Regulate our minds each day  
Tell us what we need to know  
Lobotomy slow  
Give us all you got big brother  
We look to you, there is no other  
Spell it out - shout it out  
We are what you say

Mute us all - From what our lips explode  
Brake us all - From what our hands corrode

Generation Aliens - We are the Legion of youth  
Generation Aliens - We are the last fighting few

We are the last - The last fighting few

Generation Aliens - We are the Legion of youth  
Generation Aliens - We are the last fighting few

Society is a mockery  
Designed to model majesty  
The milasents are in control  
And the dissident aren't free  
The federation suction  
It resulting in mind abduction  
Parazootox on the rocks  
Confess your treachery

Starve us all - From what we swallow whole  
Wash us all - From what our brains unfold

Generation Aliens - We are the Legion of youth  
Generation Aliens - We are the last fighting few  
Generation Aliens - We are upholding the truth  
Generation Aliens - We are the exception to rule  
Generation  
Generation
