

## The Wolf Division

Lonewolf

We are rooted in the underground - to metal we're bound  
We've sworn the oath and honour it's way, the cult of steel we  
hail  
Gift from the gods, precious and pure, a force to guide our rul  
es  
We are the masters, we are the slaves following our aim

Slaves of steel  
Slaves to metal  
Slaves of steel  
The wolf division

No mainstream crap but true and raw - the way how should sound  
metal  
The underground breed of legions preaching the iron  
We are together, all as one, to defend our gold  
No one will ever make us change - fight for the metal reign
