

## In This World Beyond

Loudness

This barren town of Kiev  
Not a soul in sight  
Only complete destruction  
Cry of the slow dusty wind  
I hear the gods premonition  
It plays in my mind  
Leave well enough alone over and over again  
In this world beyond  
Lost forever  
In this world beyond  
We remember  
Oh, never, never again

Your nuclear reactors  
Exploding into the sky  
No harmony with nature  
Destined to die if we don't try  
All warnings were ignored  
Indirectly we killed  
And created wasted lands next door to hell  
In this world beyond  
Lost forever  
In this world beyond  
We remember  
Oh, never, never

Our lust it knows no limit  
We've ignited this bomb  
Everything will turn to ashes  
All our chances are gone  
Better change the plans together  
Or live in this world beyond
