

Car Lover

Lovebugs

She wants to ride a motorbike
Her name is anne, I call her mike
She's the cutest girl I've seen
And she smells of gasolin
She said, it's alright and cool
When she's always missing school
She'd rather pick me up some time
Just for a ride to somewhere
Where we easily can hide
My car lover
She wants to drive mercedes benz
Her hair is short, she's so intense
She's got good taste oh she's got style
When we're alone we don't waist a while
She said, it's alright and cool
When she's always missing school
She'd rather pick me up some time
Just for a ride to somewhere
Where we easily can hide
Honey honey knows her backseat well
And the way that the leather smells
Honey honey I want you to tell
If you don't love me it would hurt like hell
My car lover
