Angels With Enemies

Lovedrug

And i don't think we'll get out of this hell, but the time here with you has been nice, a cold love bloody knuckle trigger finger riding on the edge of mind, a sal ute to the end of the world, and a beautiful end for you girl Because all night I've been picking fights with the fur men and the bar stool kings, and when it sounds right I'll bring them down to their knees son, and with the glo rious red we'll be off with their heads Phantoms in the courtyard waiting on the breeze to float after me, to a chamber of wailing ferns, the calm yellow air, and the dark woolen skies say our villians wil l arise, oh haunted by two's they wake by vou But it's alright in a scissor hell, and it's alright to fall de ep in love, because all night I'll be following matches into the dawn of light, where I melt you You gotta pull stars down to be someone, and when you've chemiclaimed the sun you gotta, when the oceans fill your life somehow, you gotta break the dam and wave to yourself, you gotta pull stars down to be someone, and when you chemi-claimed the sun you got it, and when oceans fill your life somehow, you gotta break the dam and wave to yourself And sometimes in a silver hell you gotta search for gold, and i n the right light we're just angels with enemies
