

Slave for the Glory

Lovex

You used to see eye-to-eye with me
I gave you everything that I could ever be
But it wasn't enough, my diamonds are rough
I'm a dime in a doze but you're one in a million

Your life's a thrill and you dress to kill
Nothing gets to stand in the way of your will
You're a superstar of the local bar
A jewel among stones, yeah, you're one in a million

You're a prisoner
Of fame and money
A slave for the glory
You reach for the stars
Though you have the
World lying in your arms

You're a prisoner
Of fame and money
A slave for the glory
You reach for the stars
Though you have the
World lying in your arms

You blink like me, and you bleed like me
More or less automotive we could never be
Say gave you star on the boulevard
And you would die on the way girl
You're one in a million

You're a prisoner
Of fame and money
A slave for the glory
You reach for the stars
Though you have the
World lying in your arms

You're a prisoner
Of fame and money
A slave for the glory
You reach for the stars
Though you have the
World lying in your arms

A slave for the glory
A slave for the glory
A slave for the glory
A slave for the glory

You're a prisoner
Of fame and money
A slave for the glory
You reach for the stars
Though you have the
World lying in your arms

You're a prisoner

Of fame and money
A slave for the glory
You reach for the stars
Though you have the
World lying in your arms

You're a prisoner
You're a prisoner

A slave for the glory
A slave for the glory
A slave for the glory
A slave for the glory
