What I would do to be close to you? What I would do for your love? I have been fighting in distant wars You are the one I've been thinking of

What I would do to be there with you? What I would do for your kiss? I have been traveling in far off lands You are the only thing I miss

But the sand stretches out ahead Time takes its time If I don't come back dead Then I'm coming to make you mine

What I would do to be close to you?
What I would do for your touch?
As I have been fighting these stupid wars
Baby, I've wanted you so much

But the sand stretches out ahead Time takes its time If I don't come back dead Then I'm coming to make you mine

What I would do for your love? For your love?
