

## Final Round

Madball

Sometimes I feel I'm against the ropes  
Fighting for my life  
Give me just a second to rest  
I'll come back with an overhand right  
I can't let circumstances get me down  
Or knock me out  
I've been in too many scuffles  
Way too many bouts

FIGHT! There is no mercy for the helpless in this life  
FIGHT! Whatever hand you're dealt, you should be ready to fight  
FIGHT! Never surrender, keep your guard up all the time  
FIGHT! Always remember, everything worth having is worth the fight

Here I am still sticking and moving  
Sometimes I don't know what I'm doing  
My instincts tell me to just keep throwing the jab  
In this life situations sometimes get you down  
But if you're not out, there's no excuses  
Get up and fight now

Get up and fight!

I don't have the answers  
But I'm still in the fight  
I've bob and weave then land a few  
And I feel alright  
You have to seize the moment  
Or at least you have to try  
Create opportunities for yourself  
In this ring of life

[Chorus]
