

# Do What Thou Will

Manilla Road

You have to do what thou will  
You've got to free yourself  
Is your cup empty or filled  
Wisdom is the true wealth

Through science, man has evolved  
Into the master race  
Embracing the eight fold law  
Your will is your own fate

If you believe  
That all your dreams  
Shall be fulfilled  
You will achieve  
What you can be  
Do what thou will

Reaching out unto the muse  
Searching for the lost chord  
Seeking the metal that's true  
Scream out and raise your sword

If you believe  
That all your dreams  
Shall be fulfilled  
You will achieve  
What you can be  
Do what thou will.
