

Never Gonna Let You Go

Martina Balogová

If I have one wish, boy
I'll wish you next to me
And it could be a summer, fall or spring, boy
Cause you make my heart sing

I wanna give my heart, my soul, my love to you oh baby yeah
Cause every day I'm not with you
I'm missing you like frenzy
I need for you to

Love me (love me)
Hold me (hold me)
Touch me (touch me)
Down keep in my soul (soul)
I'll never let it go
All the love we shared (love we shared)
No one compress to you (you)
I'll never let you go (I'll never let)
Cause I really love your soul (I'll never let you go)
Oh why I'll never let you go oh no

You must know the truth boy
and nothing without you
It's funny how I know all people mean boy
when it's too good to be true

Because you give me too good love,
good times and happiness oh
and every day you think the love for you I feel so blessed
I need for you to (I need to)

Love me (love me)
Hold me (hold me)
Touch me (touch me)
Down keep in my soul (keep in my soul)
I'll never let it go
All the love we shared (love we shared)
No one compress to you (you)
I'll never let you go (I'll never let you go)
Cause I really love your soul (Cause I really love your soul)
Oh why I'll never let you go (I'll never let you go)
oh no

hmmmm

If you only knew what you really do
I never had no one down do quite like you do
I could spend our lifetime try to find one like you
That's why I'm too glad for you babe
I wish I'm gonna start and it can't do
The lad I need for you to

Love me
Hold me
Touch me
Down keep in my soul
I'll never let it go (let it go)
All the love we shared (all the love we shared)

No one compress to you (you)
I'll never let you go (I'll never let you go oh)
Cause I really love your soul oh
Oh why (why) I'll never let you go oh no
