

That's When You'll Know It's Over

Marty Stuart

When you said it's over, I said it's not for me
When you said to forget you, I said when will that be
When that day comes, well they'll bury me
That's when you'll know it's over
That's when you'll know it's over
When I don't think of you all day every day
When I close my eyes and sleep comes right away
When you're not the first thing on my mind when I wake
That's when you'll know it's over
That's when you'll know it's over

You thought it would never end
When you broke my heart
But baby for me, that was only the start
Of this burning pain and there's no end in sight
So you've got to realize
It won't be over til it's over

When I don't see my past with you everywhere
When I see my future, without you there
When I see you with him and I don't care
That's when you'll know it's over
That's when you'll know it's over
