

Firelight

Matt Maher

Dear Jesus where are you tonight
I bear a sadness deep inside
I'm aching for a faith in things I strain to feel
I need to know that you are real

Oh Savior open up my eyes
I wanna see You like a child
There is a haze on the horizons of my heart
Dear Jesus show me where you are

Be my firelight, be my firelight
Burning fierce and bright, be my firelight

How do I move on and be free
From all these things that I have seen
All of my memories are turning into scars
Oh my God put back what's been torn apart

Be my firelight, be my firelight
Burning fierce and bright, be my firelight

If anyone remembers my name
If I'm ever known for anything
Let it be I ran into the night
Running with a firelight, firelight

Cause I don't wanna stroll the streets of gold
While there's still a soul to love
Let me run into the night
Running with a firelight, firelight
Burning with a firelight, firelight
