

# With You, Tonight

**Matt Wertz**

Saturday, 600 miles  
Lie between, the two of us  
And telephones, they can't replace  
Me with you, face to face.

You gotta tell me it's true  
That you feel the same  
I'm so much better when  
I say you're name

CHORUS:

Let me be with you tonight  
Everything will be just fine  
With you tonight

When Streetlights kissed, upon your lips  
My jealous eyes, saw all of it  
Losing sleep, we learned to be  
Me with you, you with me

CHORUS

You gotta tell me it's true  
That you feel the same  
I'm so much better when  
I say you're name

CHORUS (2x)
