

# Night Flight

Maureen McGovern

We spend our nights traveling  
But never leave the room  
Soaring through the midnight clouds  
Followed by the moon  
You teach me what I never knew  
So easily  
You take me where I've never been  
Stay with me  
You tell me things I've never heard  
Without a word  
Without a word

Night flight  
Leaving this old earth behind  
Who knows what we'll find  
The higher we climb  
Night flight  
Never been so far from home  
Together alone  
Destination unknown

My mind does not belong to me  
You interrupt my day  
And when I try to concentrate,  
You steal my thoughts away  
And even when we're miles apart,  
I feel your hand and  
Memory is more real to me  
Than where I am  
Suddenly, I stop and stare  
Though you're not there,  
You're everywhere

Night flight  
Leaving this old earth behind  
Who knows what we'll find  
The higher we climb  
Night flight  
Never been so far from home  
Together alone  
Destination unknown

Night flight  
So like night flight

So like night flight  
...
