

## Get Over You

**Mcfly**

She was looking kinda sad and lonely,  
And I was thinking to myself if only,  
She'd give me a smile but,  
Its not gonna happen that way..

So i took it upon myself to ask her,  
Would you like company and maybe after,  
We could talk a while but,  
I just dont know what to say..

Coz you've got everything that I want,  
And I just cant explain so,  
Help me babe, I gotta get over you!

Now and then she looks in my direction,  
Im hoping for a sign of her affection,  
But shes in denile and,  
Shes got some worries today..

But I think if she'll give me a chance,  
I'll pleasantly surprize but,  
Help me babe I gotta get over you..

She has everything that she wants and,  
I just cant explain so,  
Help me babe I gotta get over,  
Help me babe I gotta get over,  
Help me babe I gotta get over you..
