Kids Get Lonesome Too

Merle Haggard

```
Kids get lonesome too
So this song's just for you
When you get lonely
All ages go insane
Even young love causes pain
When you get lonely

Bad days come in pairs
It's good to know somebody cares
When you get lonely
Kids have bad days too
I wish I could be with you
When you get lonely

And we're so far apart
Then you're such a kid at heart
And I love you only
Kids have feelings too
Even young hearts break in two
When you get lonely

When we're so far apart
Babe, you're such a kid at heart
And I love you only
Kids get lonesome too
And I'm afraid of what you'll do
When you'll get lonely
```
