

# Too Bad, So Sad

Metric

Take me out of this state I'm in  
Go somewhere I've never been  
Got something trapped inside  
Still alive, where's that paradise?

I thought by now I'd find  
Rough justice is a long lifeline  
Back and forth between the desert and the sea  
Who I was and I will always be

Oh yeah, woo-hoo  
Too bad, woo-hoo  
So sad, woo-hoo

Get me out of this state I'm in  
When I spiral down, it's a vile spin  
Got something I can't hide  
Still alive, it's an overwhelming drive

To prevail and get out of this jail  
Dust in my eyes and a tear in my sail  
Back and forth between the desert and the sea  
Who I was and I will always be

Oh yeah, woo-hoo  
Too bad, woo-hoo  
So sad, woo-hoo

Take me out cause I'm all alone  
Hair undone, despair unknown  
Got something trapped inside  
Still alive, it's a momentary ride

I've been on a thousand years too long  
A thousand years too late for everything that's wrong  
Back and forth between the desert and the sea  
Who I was and I will always be

Oh yeah, woo-hoo  
Too bad, woo-hoo  
So sad, woo-hoo

Oh yeah, woo-hoo  
Oh yeah, woo-hoo  
Oh yeah, woo-hoo
