

There's No One Like You

Mickey Gilley

You are the happy in my happiness
You are the sunshine of my day
You're the breath of spring, my own, my everything
Only you can make me feel this way

To me you're the reason for living
The joy in everything I do
There could never be another love for me
For there's just no one like you

We made a lot of memories
Together, you and I
Sometimes we tried, sometimes we failed
But never failed to try

Some day your soft gentle hands will wrinkle
And I'll look a little different too
But somethings never change, my love will stay the same
For there's just no one like you

We made a lot of memories
Together, you and I
Sometimes we tried, sometimes we failed
But never failed to try

Some day your soft gentle hands will wrinkle
And I'll look a little different too
But somethings never change, my love will stay the same
For there's just no one like you, there's just no one like you
