

## Words

Midge Ure

Words that touch  
And words that heal  
Words you know were written 'bout you  
That say everything, know everything you feel

Words that save  
And words you fear  
Words that scream for every small demand  
And whisper every lullaby you hear  
To tell you stories  
And see them signed  
To shake your soul foundations, rock you gently  
Suck you in and blow your tiny mind

And words of wisdom  
And words of fools  
Words of anger, desperation, revolution  
Words as weapons, words as tools

Open up and let them reach you  
Open up and let them teach you  
Feed your mind, your heart's desire  
Welcome to a world of wonder

With words that touch  
Touch  
Touch  
Touch

Open up and let them...

With words that touch

Touch  
Touch  
Touch  
Touch  
Touch.
