

Walk On

Mint Condition

Why does it always end the same?
Trying to justify, my actions so insane
With you, it's never goodbye

The state I'm in, I thought I'd get out of
You've been the governor of my heart
I've should've known to get out of this weather
And now I ?? 'cause

Something in the wind told me
I should've walked away
You knew what to say to make me stay
Should've walked away

Been here before, should've closed the door
Should've walked away
I should've walked away, walked away
Walked away, walked away

Shame, see this time it's all on me
But the first time you were to blame
We both know we don't work
I should expect results the same

So you don't need to get no closer
Don't try to put that thing on me
But just when I say that it's over
Will you go away?

There was a time when we would get down
Our cares in the world were none
Next time I took my face to the sky to feel the rain
I know I'm gon' listen

Something in the wind told me
I should've walked away
You knew what to say to make me stay
Should've walked away

Been here before, should've closed the door
Should've walked away
I should've walked away, walked away
Walked away, walked away

Just like this, yeah
Walk on, walk on, walk on, walk on, baby
Walk on, walk on, should've walked like this, yeah
Walk on, walk on, walk on, walk on, baby
Walk on, walk on, away from all your kisses

Walk on, walk on, walk on, walk on, baby
Walk on, walk on, I got no more feeling
Walk on, walk on, walk on, walk on, baby
Walk on, walk on, should have walked away

Something in the wind told me
I should've walked away

You knew what to say to make me stay
Should've walked away

Been here before, should've closed the door
Should've walked away
I should've walked away, walked away
Walked away, walked away

Something in the wind told me
I should've walked away
You knew what to say to make me stay
Should've walked away

Been here before, should've closed the door
Should've walked away
I should've walked away, walked away
Walked away, walked away

I should've walked away, walked away
Walked away, walked away
I should've walked away, walked away
Walked away, walked away

I'm gone, I'm gone
Much too much

I'm gone, I'm gone, baby
I'm gone, baby, I'm gone, baby
I'm gone, baby, I'm gone, baby
I'm gone, I'm gone

You're much too much for me
Like when I'm on fantasy
Know what it is, baby
This one's too much for me
Like when I'm on fantasy
