## Give

## **Missing Persons**

When's the last time you really touched someone
How did it feel
Did it surprise you when you found yourself unselfish
Did it seem unreal
The pressure's everywhere-everywhere around you
Beckon you to turn the other way
But I say the results are superficial
There's only one way to play

Give-when you have anything at all to give You have everything to live for (Give all you've got to give) After you've given all you can Give again, give again

Put your head where your feet are going 'Cause the good outweighs the bad It's you that should be-you should be knowing It's for what you give not what you have When it seems you-you can't give enough Realize it's the good you do it for So when the going gets a little bit tough You've got to give a little bit more

When you're looking for an answer
Nothing seems to fit
Don't give up
You've got to let your heart become the
Mirror of your mind
Give in

When it seems you can't give enough Realize it's the good you do it for So when the going gets a little bit tough You've got to give a little bit more

Don't wait for something to cause you reason Set your goal let your mind follow through When you feel something to believe in You'll make all your dreams, all your dreams come true
