

# A Little Forgiveness

Molly Sandén

Molly:

Whatever happened to our innocence  
It wasn't hard to kill the confidence  
So scared we'd never be the same again  
So afraid  
I can't feel the love again  
You thought I couldn't feel it in your kiss  
Betrayed yourself with broken promises  
It's everywhere it's in the air I breathe  
And it's killing me  
And it's killing me  
It's killing me.

When everything is wasted

Everything is rushed  
And your heart is broken  
Lying in the dust  
There's no way to change it  
Time is running out  
I don't wanna feel this  
All we need is a little forgiveness  
A little forgiveness  
A little forgiveness  
A little forgiveness.

Christopher:

There's nothing that I wouldn't sacrifice  
To take away the sadness in your eyes  
To hear you whisper "I'm the only one"  
But the trust is gone  
And the trust is gone  
I tried to keep it all inside of me  
I didn't wanna be your enemy  
No it's everywhere  
It's in the air I breathe  
And it's killing me  
And it's killing me  
It's killing me.

Molly & Christopher:

When everything is wasted  
Everything is rushed  
And your heart is broken  
Lying in the dust  
There's no way to change it  
Time is running out  
I don't wanna feel this  
All we need is a little forgiveness  
A little forgiveness  
A little forgiveness  
A little forgiveness.

Molly:

I would swallow down my pride  
And let go if I can make a difference  
Keep on going though  
It's hard to breathe

I don't even know what's real.

Christopher:

I would swallow down my pride  
And let go if I can make a difference.

Molly & Christopher:

No, no, is truth really worth the fault.  
If you were never sorry at all.

Molly & Christopher:

When everything is wasted  
Everything is rushed  
And your heart is broken lying in the dust  
(And my heart is broken)  
There's no need to change it  
Time is running out  
All we need is

Molly:

When everything is wasted  
Everything is rushed  
And your heart is broken lying in the dust  
There's no need to change it  
Time is running out  
I don't wanna feel this  
All we need is a little forgiveness  
A little forgiveness  
A little forgiveness  
A little forgiveness
