

# Rollercoaster

Molly Sandén

You think I'm strong  
That I'm the lucky one  
Just cause I came out on top  
And you fell down below

But you where wrong  
You're not the only one  
Cause the hurting never stops  
You just let me go

You should reconsider  
Talking to the man, the man in the mirror  
Maybe he, can tell you how, to turn this all around

It goes up  
It goes down  
I can't get off  
This ro-ollercoaster ride  
This ro-ollercoaster ride  
I can't stop  
No matter what  
Can't get off  
This ro-ollercoaster ride  
Cause I think of you all the time  
But we fight too much still we can't get enough  
Don't think we'll ever be fine  
So I gotta get off  
Off this ro-ollercoaster ride

You think I'm ok  
And that I never hit the ground  
But what you didn't see  
There was no one there to catch me

You should reconsider  
Talking to the man, the man in the mirror  
Maybe he, can tell you how, to turn this all around

It goes up  
It goes down  
I can't get off  
This ro-ollercoaster ride  
This ro-ollercoaster ride  
I can't stop  
No matter what  
Can't get off  
This ro-ollercoaster ride  
Cause I think of you all the time  
But we fight too much still we can't get enough  
Don't think we'll ever be fine  
So I gotta get off  
Off this ro-ollercoaster ride

Don't bother  
To pick me up and let me fall  
I rather stay on the floor  
Don't want it anymore

Don't want it anymore

It goes up

It goes down

I can't get off

This ro-ollercoaster ride

This ro-ollercoaster ride

I can't stop

No matter what

Can't get off

This ro-ollercoaster ride

Cause I think of you all the time

(Cause I think of you all the time)

But we fight too much still we can't get enough

Don't think we'll ever be fine

So I gotta get off

Off this ro-ollercoaster ride
